

GROW FROM THE MARK.

A complete visual identity built around the official logo.

A box is structure. A leaf is motion.

The system balances usefulness with a softer environmental signal.

MODULAR / CALM / RECOGNIZABLE

The identity extends the mark's rounded box geometry into frames and modules, while a diagonal leaf rhythm adds movement. Cream and sage create breathing room; Leaf Green remains the recognisable signal.

Emotional impression: useful optimism. Leaf Box should feel considered rather than preachy, modern rather than clinical, and easy to recognise at a glance.

One logo. No reinterpretation.

The supplied JPG is the only logo source used in this kit.

LIGHT BACKGROUND

DARK BACKGROUND / WHITE HOLDING TILE

Minimum clear space: the width of the logo's leaf stem on every side. Minimum digital width: 120 px. Keep the original proportions. Never redraw, recolour, outline, crop through, rotate, stretch, add shadows, or place directly on busy imagery.

Recognisable green, quieter company.

Leaf Green leads; Forest carries text; Sage, Mint and Cream build range.

Short sentences. Useful labels. Generous spacing. Headlines can be assertive, but supporting language should stay calm and direct.

Fallback: Arial, Helvetica, sans-serif. This presentation uses DejaVu Sans for portable embedding; production applications should load Manrope from the official Google Fonts distribution.

A modular rhythm derived from the mark.

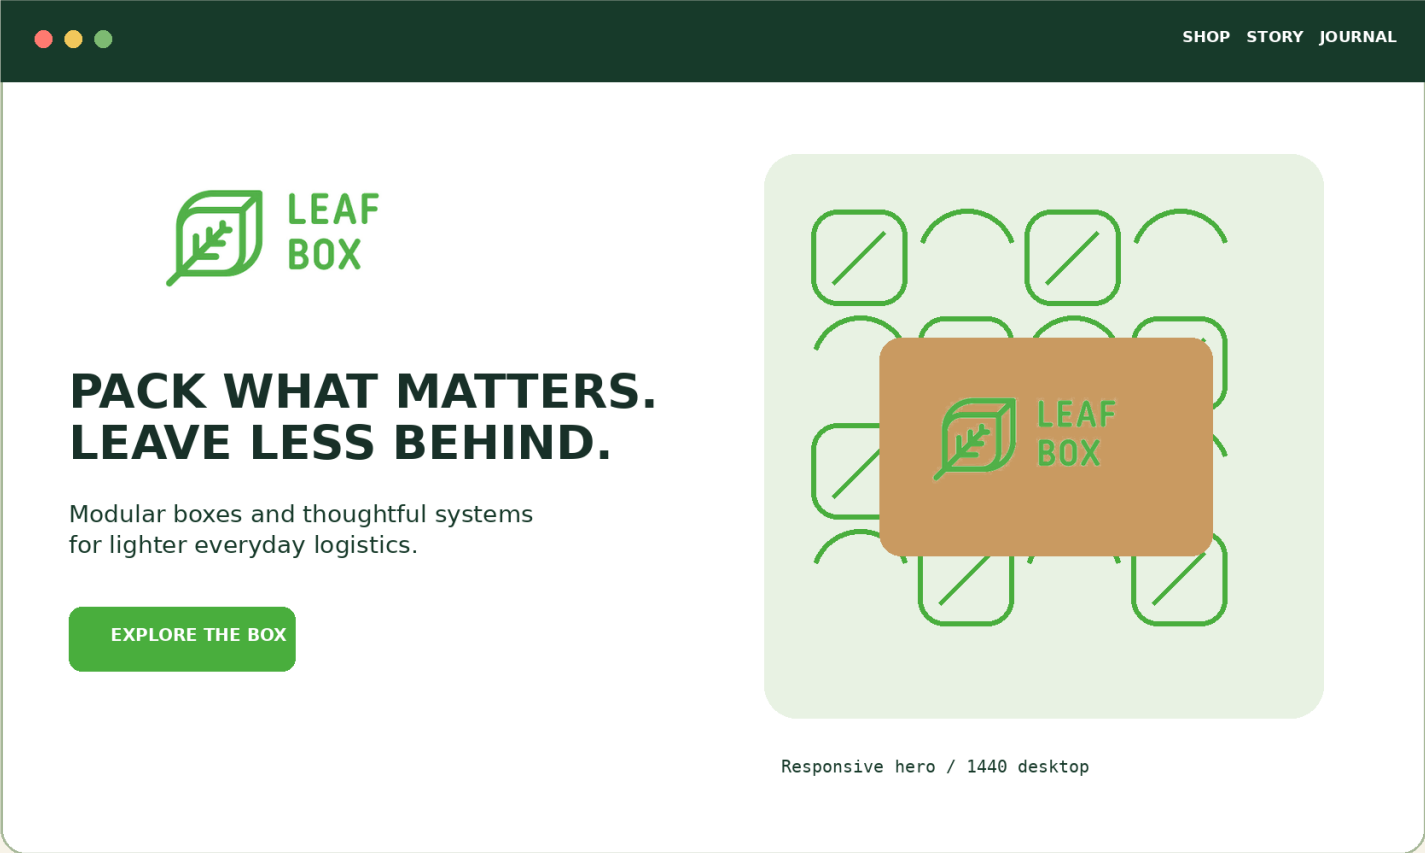

Primary: box-and-stem tiles. Secondary: leaf-path waves.

Do: crop patterns boldly, vary scale, and use one system per surface. Don't: place a dense pattern behind the official logo or combine both pattern families at equal strength.

A high-clarity digital storefront.

Editorial headline, useful navigation, modular product frame.

Three formats. One visual grammar.
